

AlphaBed

**PRODUCT &
PRICE GUIDE**

Reclaiming your space...

Our space saving bed solutions are an attractive way to make more of your home or maximise earning potential on a rental property. They'll not only be functional; they're stylish too. Whether you install into a recessed wall cavity or use one of our cupboard solutions, you'll have a multi-functional space that looks great as well.

AlphaBed

The AlphaBed is delivered as a ready to assemble Flat Pack direct to you, along with a range of optional side bookcase designs. We have designed our cabinetry in such a way that you do not need to be a "tradies" to assemble one of our WallBeds.

THE AlphaBed FLAT PACK

Alpha Steel Bed Range available in Single, Double, Queen and King. The Alpha Bed must go into cabinetry as the bed lift mechanism gets fixed to the sides of the cabinetry box. The leg of the bed swings out from over the top of the bed frame.

ALPHA FLAT PACK

The Alpha Flat Pack includes the bed frame and mechanism plus the cabinetry. The cabinetry has a choice of:

- Surrounding cabinetry box.
- Surrounding cabinetry box with bookcase.
- Surrounding cabinetry with desk.
- Variation to standard cabinetry is available to suit your needs.**

Please note the following information about our AlphaBed DIY Wall bed range.

*All prices are inclusive of freight to NSW, VIC, SA & QLD below Rockhampton.

*Some remote regions may incur extra freight costs.

*Please contact Wall Beds Brisbane for a quote on freight to WA, TAS NT & North QLD, (Rockhampton & above).

**Extra charges will apply.

All prices are inclusive of GST

AlphaBed

Studio Desk

6

WallBeds Australia can supply you with the Studio Desk mechanism only. Or the complete Studio Desk package to create a beautiful study desk that complements your room. The Studio Desk simply attaches to the front of the Alpha wall bed and lowers when you open your bed. No need to clear the desk prior to opening your Alpha Bed as the desk remains level the whole time.

Steel Bed Frame (Mechanism Only)

Consists of the steel bed frame, spring mechanism, springs & full instructions which includes the cut size list for the cabinetry.

THE FRAME

HEAVY DUTY STEEL FRAME: Engineered to outperform aluminium or wood components. Rugged, lifetime durability.

PRECISE: Takes the guesswork out of wall bed manufacturing and assembly. The exact equation to bring the cabinet and the lift mechanism together.

COMPACT: Reduces the cabinet depth to 410mm or less. Eliminates protrusions and saves valuable floor space.

LIGHTER AND STRONGER: Remove up to 45kg from some systems and have a stronger, more precise product.

ADAPTABILITY: Specifically engineered for use with leading wall bed mechanisms. No guesswork on hole drilling to combine the frame with the lift mechanism.

VERTICAL OR HORIZONTAL: The frame is precision machined to not only adapt to various mechanisms, the frame also is interchangeable as a vertical or horizontal bed.

STRENGTH AND LOAD: Three stiffeners ensure the strongest bed base possible. Stiffeners are notched to overlap the frame for maximum load bearing. Test to 907kg dead weight load.

TRIP-FREE® FOLD-AWAY LEG: No strings or cords. A leg system similar to systems costing many times more. A touch of the finger and in seconds the leg and the bed fold away.

LIFETIME WARRANTY: Limited lifetime warranty on manufacturers defects.

SPRING MECHANISM
